

Household solar container prices in Cape Town

Overview

A typical 5kW system now costs between R120,000-R220,000 installed. Wait, no - that's before considering the new City of Cape Town rebates announced last month. Roof orientation matters more. With Eskom's recent 15% tariff hike and load shedding still disrupting daily life, over 23,000 Western Cape homes installed solar systems last quarter alone. Pricing by system size, equipment breakdowns, ROI calculations, financing options and more. Understanding these elements will help you budget effectively. System Size: The larger the system (kW capacity), the higher the upfront cost but greater. In a market where sustainability is increasingly valued, homes with solar installations in Cape Town tend to command higher prices and attract more buyers, enhancing overall property values. We're the sunniest solar solutions provider in South Africa, simplifying the solar process from start to finish, and providing personalized guidance and exceptional service along the way.
