

# Huawei lithium battery capacity square

## Overview

---

It communicates via RS485 / FE / CAN and delivers a maximum output power of 3. Specifications: It provides an ESS usable capacity of 6.5 kW and an operating temperature range of -20°C to +55°C. SmartLi is a battery energy storage system developed by Huawei for UPS, which has the features of safety and reliability, long lifespan, space saving and easy maintenance. LFP is the safest cell of Li-ion battery. 2V), capacity (measured in kWh), depth of discharge (DoD), and thermal management. Always verify authenticity, check warranty terms, and confirm integration capability before purchase 1.
