Cutting Unit
 Part 2: Edge Banding Rotary Line
 Part 3: Drilling Unit
 With no skilled workers needed online, it greatly reduces labor cost and management cost, and ensures no errors in production. Without shutdown of any machine, it may reach the maximum theoretical production efficiency, which is at least 25% higher than a single machine. Having no constraint by manual production on taking large or rush orders, the machine can operate... With no skilled workers needed online, it greatly reduces labor cost and management cost, and ensures no errors in production. Without shutdown of any machine, it may reach the maximum theoretical production efficiency, which is at least 25% higher than a single machine. Having no constraint by manual production on taking large or rush orders, the machine can operate without interruption in two or three shifts to expand production and sales with no worries, which g With flexible production on multiple orders, it automatically collects leftover pieces for storage and recycling, thus improves utilization ratio of the plates.
