

Invest 500 million in solar power generation

Overview

AIP Management, a Netherlands-based energy and decarbonization infrastructure investor is investing \$500 million in full-service United States solar company Silicon Ranch, AIP announced Thursday. The company has 7 GW of solar and battery storage systems contracted, under construction or operating across the. AIP will invest half a billion dollars in Silicon Ranch, a full-service solar company and one of the largest U. Add us as a Google Preferred Source to see more of our articles in your search results. Solar panels photovoltaic power station. Getty Images This audio is. These days, it pays to be in the business of renewable energy — and for one U. -based solar company, \$500 million is just the beginning. Utility Dive recently reported on an investment from Netherlands-based AIP Management into Silicon Ranch, a full-service solar provider based in Nashville. Solar photovoltaics (PV) are going to play a major part in the country's energy future, regardless of what the Energy Secretary seems to think, and doubters needn't look any further than a half-a-billion dollar European investment into one of America's largest independent power producers (IPPs). This strategic partnership aims to bolster Silicon Ranch's efforts in.
