

Is photovoltaic support considered illegal

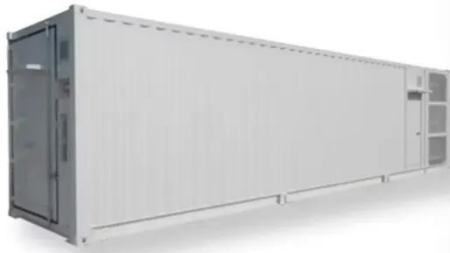

Overview

However, in general, solar panels are not illegal and most states have laws in place that protect a homeowner's right to install them. There are a few states where HOAs may still prohibit or restrict solar panels, but this is generally not the case. During this period, major developments have occurred in the solar PV industry and in related policy areas including (1) a. Is Installing Solar Panels Illegal in Any State?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA). State solar regulations generally fall into three key categories: installation requirements, financial incentives, and utility connection policies. While federal guidelines provide a baseline, local jurisdictions often implement additional requirements affecting everything from permit costs to HOA. A new law effective J, requires companies that contract with residential homeowners to install solar photovoltaic (PV) systems on homes in Minnesota be licensed as a residential building contractor or remodeler.
