ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a tall, grey Energy Storage System (ESS) unit. It has a black top and bottom. Two vertical green lines run down the front panel. In the center, there is a blue hexagonal shape with a black lightning bolt symbol. The letters 'ESS' are printed in green at the top right of the panel. At the bottom, there are two yellow warning triangles with black lightning bolts.

Overview

The Kresge Foundation announced four new social investments today designed to help solar and energy-storage products reach more Americans through the decarbonization of community facilities. Partnering with marginalized communities to expand equitable solar energy access. No matter who you are, we believe that energy should be easy to access. While there is a notable uptick in clean energy adoption among first-world countries and emerging markets, there is still a lot of progress to be made - and renewable energy nonprofits are leading the charge. What is Energy Poverty?

Energy poverty affects around 1 billion people worldwide—families without lights, clinics without power for vaccines, schools where learning ends at sunset. But energy poverty isn't.
