**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

## Overview

---

Wood Mackenzie has released its latest “ Global Solar Module Manufacturer Ranking ” report for the first half of 2025, which assesses solar panel companies on shipments, bankability and performance. JA Solar and Trinasolar jointly claimed the top rank, with scores of 91.7 and 91.5. JA Solar Holdings Co. They produce high-performance solar panels for residential, commercial, and utility-scale projects. N-type Technology Dominance: By 2025, virtually all leading manufacturers have transitioned to N-type cell technology (HJT, TOPcon, or Back-contact), delivering 19-24.3% efficiency compared to older P-type cells at 17%. This shift provides better performance, lower degradation rates, and lower costs. According to Solarbe Global and InfoLink Consulting data, the Global Top 4 — Jinko Solar, LONGi, Trina Solar, and JA Solar — maintain almost half of the global market, with a 48.5% share. However, the gap with the rest of the competitors is narrowing, marking the start of a more competitive market. Technology & Innovation - Advanced technology improves performance, especially in low-light conditions. Reputation & Reviews - Customer feedback and industry recognition are good indicators of reliability and performance.
