

Jamaica pumped hydro storage

Overview

Jamaica's prime minister Andrew Holness revealed that an international consortium is planning to build a pumped-hydro storage project that has already secured preliminary approval. The project, which will also include deep-sea desalination, is currently undergoing technical and. MONTEGO BAY, St James — The governing Jamaica Labour Party (JLP) has plans to introduce a massive hydro storage project to serve sections of Clarendon and the southern section of Manchester utilising cutting-edge technology if it is given the nod by voters in the September 3 General Election. Reportedly, the power generation could be up to 200MWh annually and could increase Jamaica's proportion of renewable electricity generation to 50% from 13% today. Source: Energy Storage News .
