

Kosovo solar energy research and development

Overview

Kosovo is transitioning to solar energy with key projects such as the 'Kosovo's 100 MW Solar Auction' in Kramovik, alongside incentives for small-scale photovoltaic (PV) installations up to 7 kW. It will contribute to significantly reducing greenhouse gas emissions and pave the way for further investment. The. As a potential European Union (EU) candidate and an Energy Community (EnCT) Contracting Party, Kosovo is embracing the climate and energy priorities of the union, aligning itself with the ultimate climate-neutral ambition by 2050. The presentation highlighted that, despite slow progress, solar energy remains central to achieving climate neutrality. Kosovo is significantly advancing its solar energy sector, with expectations to add 100 MW of new solar capacity by the end of 2025.
