

# Laos solar energy storage project bidding

## Overview

---

Laos is accelerating its renewable energy transition, and the Vientiane Energy Storage Project stands as a pivotal initiative. With bidding now open, global investors and engineering firms have a unique chance to participate in Southeast Asia's most anticipated energy infrastructure. Laos has significant potential for solar photovoltaic, wind, and biomass energy due to its geography. Government's initiative: "Enhancing Development and Growth through Energy" (CLEAN EDGE Asia). With Blackridge Research's Global Project Tracking (GPT) platform, you can identify the right opportunities and grow your pipeline while. st hybrid floating solar project. With an installed capacity of 240 megawatt peak (MWp), the solar project will be built on the reservoir of Nam Theun 2, local dai id, microgrids and related areas.
