

Large capacity solar container outdoor power customization

Overview

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. By delivering clean, accessible electricity, we support sustainable communities and contribute to a healthier planet. SolaraBox Mobile Solar Container brings green energy wherever you. In the dynamic world of container applications, from cozy tiny homes to innovative business setups, the power to customize is key.
