

Latvian wide temperature lithium titanate battery pack

Overview

Lithium titanate battery (LTO) outperformance in fast charge (5C-30C), longer battery life (>7000cycles), wider working temperature (-40°C-70°C) and excellent safety compared with other carbon-based lithium battery. Choose from prismatic. Altairnano is the first company to replace traditional graphite materials used in conventional lithium-ion batteries with a proprietary, nanostructured lithium titanate. Establishing a research program in 2000 to develop lithium-ion cell technology for power-dependent applications, Altairnano set. Lithium titanate battery is a new type lithium ion battery with outstanding safety performance, high rate and very long cycle life. The BMS, Energy Power will be assembled based on your specifications. Our fully automated mechanized production, advanced mechanical welding technology and.

Latvian wide temperature lithium titanate battery pack

Lithium Titanate Battery Manufacturer, LTO Battery Pack Solution

It has over 80% capacity only charging within several minutes, and has good over-discharging resistance and anti-reverse charging protection, so there is no safety issue of explosion or fire even if ...

Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

Lithium Titanate at Altairnano , Unmatched Power

Altairnano has achieved a high-powered energy storage and battery system that has significantly greater thermal stability than any other lithium-ion battery in the market.
