

Longi 430 photovoltaic panel specifications

Overview

The LR4-72HBD-430M solar panels have a rated output of 430 Wp and an impressive efficiency of 19. LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products. The 108 half cells and high-quality workmanship make them particularly suitable for residential and small commercial installations where every. The product comes with detailed technical parameters tailored to ensure efficient operation and compliance with industry standards. Key specifications include high power output, temperature tolerance, and robust mechanical construction.
