

Longi s high-power photovoltaic panels

Overview

LONGi Solar is the world's leading manufacturer of high-efficiency monocrystalline silicon wafers and PV modules. With advanced HPBC and PERC technology, LONGi delivers reliable, high-performance solar panels for utility, commercial and residential projects. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. Longi is the world's leading solar manufacturer, consistently making Top-10 solar brands. With manufacturing facilities and sales offices in more than 150 countries and regions worldwide, including Asia, America, Australia, and the Middle East, Longi has established a strong reputation for its. LONGi Solar was founded in 2000 and is based in Xi'an, China. The panels from LONGi Solar. With 15 manufacturing bases and more than 30 branches around the world, LONGi produces monocrystalline silicon wafers, panels and modules, delivering solutions for distributed and ground mount power station systems, promoting the development of the global PV industry and driving energy. The LONGi Hi-MO 5 series is one of the best solar solutions designed and manufactured by LONGi, specially created for utility-scale applications, but adaptable to residential and commercial ones.

Longi s high-power photovoltaic panels

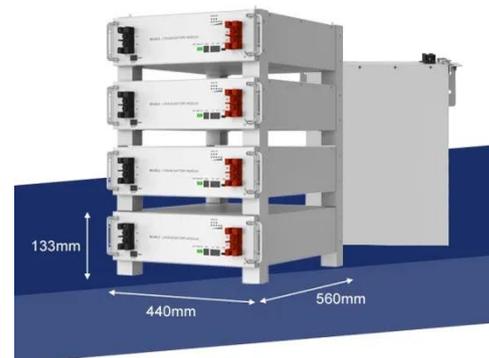

The World's Leading Supplier of Solar PV Solutions

Vertically Integrated Solar PV Value Chain LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy ...
