How Much Power Can I Get Out of A 5kw Solar System? How Many Panels Does A 5kw Solar Kit contain? How Much Space Will The Solar Panels Take on My Roof? Variables like weather, temperature, the age of your system and whether your panels are heavily soiled can affect how much power your solar system can produce. Generally, a 5kW solar system generates about 5,000 watts of Direct Current (DC) power. However, if you account for system losses incurred by the above variables, you could potentially decrease.
