

Low-pressure mobile energy storage container for oil platforms

Overview

Fluidall's Portable Liquid Storage Tanks are complete mobile liquid transfer solutions for the storage and dispense of oil, DEF, hydraulic fluids and other automotive style for mobile application use, on the jobsite, and to remote service areas. The tanks are refillable for use. Revolutionize your offshore energy storage with our economical, enabling subsea solution Have a question?

Contact us. Whether for use on oil rigs or in the harsh conditions of oil fields, our containers ensure reliable safety, durability, and maximum protection. In the refining industry, oil storage tanks are indispensable for containing large volumes of flammable liquids within the oil supply chain. Our containerized and trailer-mounted lithium battery systems are built to replace diesel generators.
