

Ma flat roof photovoltaic bracket

Overview

The IronRidge BX Flat Roof Attachment Kit with L-Feet (Model: BX-MA-FRA-M1) is a comprehensive solution for securely mounting solar panels on flat roofs. This kit includes all necessary components for a robust and durable installation, ensuring optimal performance and safety. Made of a glass reinforced composite, the BX Chassis is engineered for extreme structural loading, yet is also shaped to be roof-friendly and easy to. Low-slope roofs (0-6°) are extremely common in residential and commercial buildings, but the roof construction and the structural system below vary significantly, creating a challenge for designing solar arrays. 0" of separation between your roof and the solar mounting structure for your solar array. The FastJack E-Series is designed for its. The BX Flat Roof Mounting Assembly provides parts (to be combined with the IronRidge Flat Roof Attachment and locally-sourced strut and channel nuts) to add Flat Roof Attachment anchors to the BX System.
