

# Maldives solar container outdoor power Manufacturing Company

## Overview

---

In order to address the energy needs of the 58 Small Island Developing States (SIDS) and other coastal communities, AEON Energy (AEON) intends to develop a new floating energy generation platform, that combines solar PV and wave energy generation into one robust, modular device. Maldives portable solar outdoor power um battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. ISO/TUV/CE-certified units. For an entrepreneur considering solar module manufacturing, the Maldives presents a compelling paradox. Its abundant sunshine, averaging 5-6 kWh/m<sup>2</sup> per day, and heavy reliance on expensive, imported diesel create a clear market need. Each and every system is unique. From installation to maintenance, our trained and certified team is committed to make solar power a seamless process for your property. Announced on J, this ambitious project aims to significantly reduce the resort's dependence on diesel generators by providing clean.
