

# Mauritius Base Station Energy Management System Cost

## Overview

---

The 20 MW BESS, to the tune of Rs 700 million, was supplied, installed and commissioned by SIEMENS France, a world leader in industrial electrical and electronic systems including utility-scale battery storage. Recent pricing trends show 20ft containers (1-2MWh) starting at \$350,000 and 40ft containers (3-6MWh) from \$650,000, with volume discounts available for large orders. Why is battery energy storage system being introduced in Mauritius?

The CEB is introducing a Battery Energy Storage System (BESS) on. In the Budget Speech 2021/22, the Government of Mauritius announced the Green Energy as a new economic pillar of Mauritius. BESS plays a critical role in. The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, marking a significant stride towards its ambitious goal of achieving 60% renewable energy in the electricity mix by 2030.
