Metal Antimony solar Glass

Addressing uncertain antimony content in solar glass for recycling

The solar glass sector is ready to take back the European manufactured high-quality cullet at the end-of-life stage of PV panels and use it to produce new solar glass for the European solar PV industry.

The Dark Side of Solar Glass: Antimony, Geopolitics and the Energy

While most of the discussion focuses on glass, there's a second antimony-solar story quietly unfolding in laboratories. Antimony chalcogenides--compounds like Sb_2S_3 and Sb_2Se_3 --are ...

Necessity for recycling photovoltaic glass: Managing resource

The production of this significant amount of (77.1-178 Mt) glass annually will place considerable pressure on raw materials, such as antimony (Sb), which is essential for PV glass ...

Release: ESIA Recommendation Paper Addressing uncertain antimony

Given that glass constitutes a substantial portion of PV module weight, recycling glass proves environmentally beneficial by reducing CO₂ emissions and conserving energy. However, the ...
