

Micronesia Telecommunication Base Station solar Power Generation Specifications Tender

Overview

The Pacific Community (SPC) is running a hybrid solar microgrid system tender in Micronesia. The solar microgrid system tender covers the engineering, procurement and construction of the hybrid PV systems, inclusive of training and the supply of materials for low. The Pacific Community (SPC) is the principal scientific and technical organisation of the Pacific region, established by treaty in 1947 with the signing of the Agreement Establishing the South Pacific Commission (the Canberra Agreement). SPC has our headquarters in Noumea, New Caledonia and has. A tender is open in Micronesia for the engineering, procurement and construction of hybrid solar minigrid systems at three villages on the Fefen Islands. The power generated by solar energy is used by the DC load of the base station computer room, and the insufficient power is supplemented by energy storage. Explore the latest Micronesia Solar Power Tenders and gain access to real-time government bids, eProcurement updates, and detailed information on government contracts in Micronesia.
