

# Mihe Solar Power Generation

*Test certification*

CE  FC 

## Overview

---

Solar power in Michigan has been growing in recent years due to new technological improvements, falling solar prices and a variety of regulatory actions and financial incentives. The largest solar farm in Michigan is Assembly Solar, completed in 2022, which has 347 MW of capacity. We know that generating cleaner energy is one of the most important steps we can take to reduce carbon emissions and address climate change. While our investment in renewable energy already. Tokyo, J- Mitsubishi Heavy Industries America, Inc. Since 2010, solar power capacity in the United. Governor Kathy Hochul today announced that 6 gigawatts (GW) of distributed solar have been installed across New York, marking the early achievement of the State's Climate Leadership and Community Protection Act statutory goal a year ahead of schedule.
