

Monrovia energy transition

Overview

The City of Monrovia has selected Clean Power Alliance (CPA) as its new preferred electricity provider. Starting in March 2024, homes and businesses will transition to CPA service and automatically receive clean, competitively priced energy from CPA. The City of Monrovia also selected 100% Green. The City of Monrovia has selected Clean Power Monrovia is going to 100% Green Power with Clean Power Al duce more than 115 million pounds of harmful greenhouse gases each year, which is illion residents and businesses in 35 Southern California communities across Los Angeles and Ventura counties. With global energy storage now a \$33 billion industry generating 100 gigawatt-hours annually [1], projects like Monrovia's bid. First established in 2020 and founded on EPRI's mission of advancing safe, reliable, affordable, and clean energy for society, the Energy Storage Roadmap envisioned a desired future for energy storage applications and industry practices in 2025 and identified the challenges in realizing that. With rolling blackouts affecting 12% of households last quarter and electricity prices jumping 18% year-over-year, the city's photovoltaic energy storage development isn't just eco-friendly—it's becoming an economic necessity. Let's unpack what's driving this solar revolution and how battery.
