

# Montenegro electromagnetic energy storage module price

## Overview

---

The tender's value is estimated at close to 50 million euro (\$58 million), the company said in a statement. Each facility will have a power capacity of 30 MW and energy storage capacity of 120 MWh. EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. The price range generally falls between \$10,000 and \$100,000. Energy Storage Grand Challenge Cost and Performance Assessment 2020 December 2020. The initial public procurement was canceled because state-owned energy company Elektroprivreda Crne Gore (EPCG) didn't. The cost of a 1 MW battery storage system is influenced by a variety of factors, including battery technology, system size, and installation costs. [pdf] How much does a 1MWh battery energy.
