

Nairobi energy storage product manufacturing plant

Overview

Canto Systems is setting up battery manufacturing in East Africa. Once complete, our 1 GWh state-of-the-art facility in Kenya will power downstream applications in stationary energy storage and electric mobility. In Kenya, the demand for reliable energy storage solutions continues to rise with the proliferation of renewable energy systems, electric vehicles, and the need for uninterrupted power supply. As a result, the battery manufacturing industry in Kenya has experienced significant growth, with several. Kenya's capital now hosts one of Africa's most advanced battery processing facilities, strategically positioned to serve growing energy demands. By producing locally and using clean energy, we're reducing costs, improving access, and building a more self-reliant, sustainable energy future for the region. Today, as a vertically integrated energy.
