

Namibia warehouse solar air conditioning

Overview

By harnessing Namibia's abundant sunlight, warehouses can achieve year-round temperature control without relying solely on costly diesel generators or overloaded power grids. Did you know?

A typical 5,000 m² warehouse in Windhoek spends over NAD 400,000 annually on. With over 300 days of annual sunshine, Namibia has one of Africa's highest solar irradiation levels. Yet, warehouses across the country face a paradox: scorching temperatures demand energy-intensive cooling systems, while rising electricity costs and grid instability threaten operational. eco° HVAC is powering Namibia's sustainable future with advanced HVAC systems designed for reliability and consistent performance. With more than 20 years' experience in the industry, we have a solution on all your HVAC needs, ranging from simple, single split unit installations, to complex, multi VRF installations in sky rises and hospitals. Saager. Solar City Proprietary Limited, headquartered at 22 Palladium Street, Prosperita, Windhoek, Namibia, is an emerging player in the renewable energy sector. She is the best and most reliable partner of Atlantic Solar Namibia cc. Seasonaire offers the design, supply, installation and maintenance of all air-conditioning and refrigeration systems, from Swakopmund to Gobabis, Ondangwa to Aussenkehr and everything in between.
