

# New Energy Storage in Asia

## Overview

---

Key themes to watch this year, highlighted by analysts at BNEF's 2026 Asia Pacific Energy Transition Outlook webinar on Feb. 4, include the rapid scaling of energy storage, a growing pipeline of offshore wind auctions in Southeast Asia, and new power and energy. Energy storage scale-up, offshore wind auctions, and shifting power roadmaps emerge as key Asia-Pacific transition themes, BNEF says. (Photo: iStock) “Since 2013, the Asia-Pacific region has been dominating energy transition investment, and last year was no different,” said Ali Izadi-Najafabadi. Regional power systems across Asia-Pacific are undergoing structural transformation through distributed energy storage architectures that fundamentally alter traditional grid dependencies. Asian Insiders Managing Partner Jari Hietala provides an overview of the situation and potential opportunities for market entry. As we have discussed previously, several. Inside the Huadian energy storage plant in China's north-central city of Delingha, Qinghai province. It is currently the largest single electrochemical storage facility in the country (Image: Ma Mingyan / China News Service / Alamy) In February 2025, China shelved a requirement that new domestic. 10 July 2025 - Trina Storage, the energy storage division of global solar leader Trinasolar, has reached a significant milestone with more than 2. Spanning Australia, Japan.
