

# New York Solar Cell Energy Storage

## Overview

---

With solar + storage, your solar panels will power your home and keep a battery system charged for times when the panels need a little extra backup. New York City has committed to deploying 1,000 megawatts (MW) of solar citywide by 2030, enough to power 250,000 homes. Solar panels allow buildings to generate emissions-free electricity. Depending on your home and. When New York state passed its ambitious Climate Leadership and Community Protection Act in 2019, Brooklyn-based NineDot Energy saw an opportunity. power grid in 2025 in our latest Preliminary Monthly Electric Generator Inventory report. This amount represents an almost 30% increase from 2024 when 48.6 GW of capacity was installed, the largest.
