

Niger solar container outdoor power specifications

Overview

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid. The wall outlet plugs are set up with two different outlets, and all critical systems run on DC (direct current) electricity straight from the batteries. We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. 7V 2200mAh cylindrical lithium ion electricity. From nomadic herders to urban businesses, here's where energy storage inverters make the biggest impact: 1.
