

# Ntpc floating solar power

## Overview

---

NTPC Ramagundam Floating Solar Power Plant is a floating photovoltaic power station in Ramagundam, India. The project is spread over 600 acres of reservoir. 36 million Ton CO<sub>2</sub>e during the life of the project. With the focus shifting towards cleaner sources of power. The 100MW Ramagundam floating solar PV power project is being developed on the reservoir of NTPC Ramagundam Thermal Power Station in Telangana. NTPC is also planning to set up a hydrogen-based micro-grid system on a pilot basis at Simhadri.

## Ntpc floating solar power

### NTPC commissions India's Largest Floating Solar

NTPC commissions India's largest floating solar PV project of 100 MW at Ramagundam, Peddapalli District, Telangana. The project is spread over 600 acres of reservoir.
