

Ottawa energy efficiency

Overview

There are many rebates, incentives and financing programs available to help you improve the energy efficiency of your home. These include the City of Ottawa's Better Homes Ottawa Loan Program and the Canada Greener Homes Grant and Loan programs. Find the right incentive for you. These emissions are mostly from burning natural gas for heat and hot water. All the information and support you need to start your home energy retrofit journey. Plus, by combining certain programs, you can unlock even. Almost 50 per cent of Ottawa's carbon emissions come from buildings. Let's explore the benefits, services, and steps toward creating a greener home, as shared. Our nation's capital, Ottawa, is about to rethink the way it uses energy, creating a much-needed ecological shift in response to global climate change. So, what does the Ottawa Energy Efficient Agenda entail?

In its simplest.

Ottawa energy efficiency

East-end retrofits see affordable housing obtain air conditioning

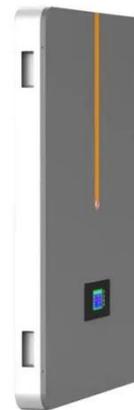

To meet Ottawa's goal of reducing greenhouse gas emissions to zero by 2050, about 327,000 of existing homes must undergo a deep energy efficiency retrofit by 2040, according to the city.
