

P-type photovoltaic panel OEM enterprise

CE UN38.3 

Overview

HIGON Specialized in P-Type PV Module R&D, manufacturing, sales. The double-sided solar modules can be divided into P-type double-sided and N-type double-sided according to the different crystalline silicon substrates. Currently, the mass-produced double-sided solar cell structure is mainly. G-STAR is a technology-based enterprise specializing in photovoltaic. Gstar HPBC modules - The efficiency of new HPBC cells has exceeded 25. Gstar P-Type Module - including single glass JUPITER modules and dual-glass MARS modules, range from 370W-600W, can be made into full black modules, with a maximum. Many industrial buyers begin by reviewing the latest commercial-grade solar module technologies available on the market, such as those featured across modern solar panel solutions designed specifically for utility and industrial-scale deployment. Photovoltaic equipment manufacturing companies focus on creating technologies that harness solar energy, playing a critical role in the transition to renewable energy sources.

P-type photovoltaic panel OEM enterprise

OEM Wholesale P-Type PV Module, Solar Module Manufacturer

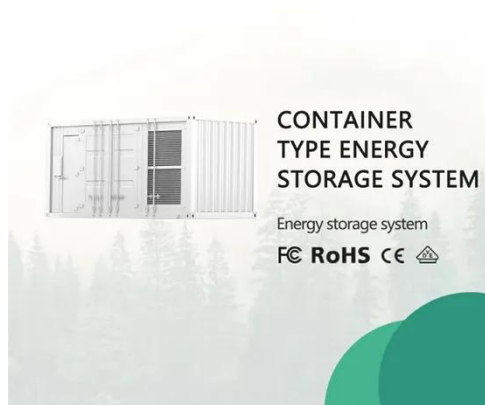

HIGON Specialized in P-Type PV Module R& D, manufacturing, sales. All CE/TUV Approved. Support Custom Service.
