

# Photovoltaic bracket U-shaped steel specifications and dimensions

## Overview

---

Fits solar panels ranging from 1650×992mm to 2000×1000mm, accommodating most standard panel sizes in the market. Photovoltaic brackets are essential components for securely mounting solar panels, ensuring stable and reliable installations. Designed for durability and precision, these brackets are engineered to withstand various environmental conditions, from extreme weather to long-term wear. Constructed from high-strength steel or aluminum The U-channel bracket is a core load-bearing component in photovoltaic power stations. U-shaped steel offers excellent advantages such as effective fire resistance, low cost, and stable quality. Specifications of U-shaped Steel, as a wholly-owned subsidiary of Hebei Aoqiang Metal Products Group, was established in 2023 with a registered capital of 10 million yuan, focusing on global trade services for new energy metal products. Relying on the parent company's more than 10.

## Photovoltaic bracket U-shaped steel specifications and dimensions

---

### Photovoltaic panel U-shaped steel specifications

Solar panels mounting brackets u profile steel, a steel with a cross-section like the English letter "U", has long-lasting support, high pressure, easy to install and not deformable.
