

# Photovoltaic bracket accounting

## Overview

---

IEC 61724-3 (2016) “Photovoltaic System Performance- Part 3: Energy Evaluation Method” is the standard that details solar energy accounting and reporting. Let's start with the obvious accounting item, which is capitalizing the cost of the panels. This includes the cost of not just the panels, but also any associated racking systems, and batteries, and inverters. In case you're wondering, a solar panel produces direct current, and an inverter is. When installing solar panels that could power about 300 homes annually, the photovoltaic bracket system becomes the unsung hero. investors to enter the clean-energy sector in the U.
