

Photovoltaic energy storage sector analysis chart

Overview

NLR conducts detailed supply chain analysis for specific photovoltaic module technologies. PV Installations on Tableau. These analyses draw from data collected through a combination of third-party market reports, primary interviews, and publicly available data. Majority of the growth is due to forklifts (8% CAGR). UPS and data centers show moderate growth (4% CAGR) and telecom backup battery demand shows the lowest growth level (2% CAGR) through 2030. The market is expected to reach USD 378. Government incentives for solar-plus-storage installations and net metering policies enhancing storage demand along with rising environmental.
