

# Photovoltaic galvanized bracket installation specifications

## Overview

---

Column specifications: 60mm diameter, 3mm thickness, 2m height. Rooftop. Grade 50 steel shall be used for columns, sloped beams and purlin. Their mechanical properties and chemical composition shall meet the requirements of ASTM A572/A572M-15 "Standard Specification for High-Strength Low-Alloy Columbium-Vanadium Structural Steel." A36 steel shall be used for H-shaped. Our galvanized steel photovoltaic brackets are made of high-quality galvanized steel, which provides excellent corrosion resistance and ensures stable and long-term use of the brackets in humid, salt spray or other harsh environments. Through precise design, our brackets are not only structurally. clamp for easy installation ng is done in accordance with long established ASTM specifications. There are three main specificati. the first module of a row in pl PV projects, this installation s stem can be adjusted arbitrarily.
