

# Photovoltaic integrated energy storage cabinet hybrid for steel plants

## Overview

---

They must store, shift, and deliver power intelligently. Enter the PV storage cabinet: a fully integrated enclosure that brings together lithium battery packs, hybrid inverters, energy management protocols, and safety systems into one scalable solution. Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection. Four in - cabinet PV interfaces with built - in inverter—no extra inverter needed, cuts costs & simplifies setup. Ensures automatic and seamless switching between grid and off-grid modes for uninterrupted power. Instead of using separate components for power conversion and energy storage, this design. Huijue HJ-GCY series solar-storage integrated energy-saving cabinet is an outdoor integrated cabinet made of high-quality metal plate materials, which can integrate solar photovoltaic panels and intelligent multi-input hybrid power systems (supporting photovoltaics, mains power, diesel generators).
