

# Photovoltaic panel controller fault code

## Overview

---

Refer to the manufacturer's manual for specific error codes. Perform recommended corrective actions. An error code flash on your Solar Charge Controller indicates a problem has occurred. This will help you get your solar charge controller. However, like any electronic device, PWM charge controllers can encounter issues, often indicated by error codes or unusual behavior. Understanding these codes and knowing how to troubleshoot common problems is essential for anyone relying on solar energy.
