

Photovoltaic panel export volume ranking table

High Voltage Solar Battery

Overview

Discover the top 10 solar panel manufacturers by global shipments in 2025. Ranking with Jinko, LONGi, Trina, and JA Solar. This report includes summary data for the photovoltaic industry from annual and monthly respondents. Data include manufacturing, imports, and exports of modules in the United States and its territories. The country representing the second-largest share of PV production was Vietnam, accounting for just 3. Who will dominate the global PV module market in 2023?

A total of 18 Chinese companies were. The world's top 10 solar photovoltaic (PV) module manufacturers shipped a record 500 gigawatts (GW) of modules in 2024, nearly doubling the previous year's volume, according to Wood Mackenzie's new Global Solar Module Manufacturer Rankings 2025 report. Between 2025 and 2029, global solar photovoltaic capacity additions are projected to increase yearly and range from some 655 gigawatts in 2025 to 930. During the first three quarters of 2025, the photovoltaic industry has reached a new balance among the leading manufacturers.
