

Photovoltaic panel grounding wire price details

Overview

It should have information on grounding and what wire size to use. You may use the table above as a guide. Check your service amps and pick. Check each product page for other buying options. Need help?

. This PV grounding wire use high purity oxygen-free copper core, anti-oxidation and stable conductivity, and the protective coating is high quality PVC material, insulation,safety and environmental protection. These wires are designed to withstand the conditions common to solar panel installations, such as sun exposure, moisture exposure, and temperature. Photovoltaic wire for PV solar applications and 10 AWG solid copper wire for continuous grounding of solar projects. Its 8 inch length provides.
