

Photovoltaic panel price inquiry network

Overview

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt. Global estimates are used before 2010; European market. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. This work has grown to include cost models for solar-plus-storage systems. Currently, polysilicon with traceability data generally carries a quoted premium of RMB 3-5/kg. Definition of PV Grade: Polysilicon chunk with high purity can be used directly to produce Solar PV. From upstream polysilicon, wafers and cells, to downstream panel prices, OPIS Global Solar Markets keeps you updated on solar price trends and forward prices. No middlemen, no hidden fees, no bullshit. Solartraders is managing international pv transactions successfully since 2011.
