

# Photovoltaic panels installed and connected to the grid

## Overview

---

Let's walk through the process of connecting solar panels to the grid step-by-step, starting with site evaluation. Professional Installation is Critical: Grid-tied solar systems require licensed electricians and multiple permits, with the interconnection process typically taking 2-8 weeks and costing \$200-\$2,000 in fees alone. Load-Side Connection Dominates Residential Installations: The 120% rule limits total. Here are design tips for methods of PV system utility interconnection. Whether you're a homeowner looking to reduce energy bills, a business aiming to lower operational costs, or simply. Interconnection is the last step of installing a solar panel system. This means that homes and businesses can't directly use DC.
