

# Photovoltaic support spiral piles in stock

◆ **PRODUCT INFORMATION** ◆

The image shows a tall, grey metal cabinet for an Energy Storage System. The cabinet has a white door with a handle and a small control panel. The text "Energy Storage System" is printed on the door. At the bottom of the cabinet, the model number "DW-ESS-100P-200" is visible. To the right of the cabinet, there are four green circular icons with white symbols, each followed by technical specifications.

-  **BATTERY CAPACITY**  
50kWh~500kWh
-  **DC VOLTAGE RANGE**  
400V~1000V
-  **DEGREE OF PROTECTION**  
IP54
-  **OPERATING TEMPERATURE RANGE**  
-10~50°C

## Overview

---

Find top spiral pile solutions for solar mounting, foundations, and durable ground anchors. Its essence is galvanized steel pipe pile with screw blade welded. The spiral blade can well increase the resistance of soil to it and enhance the pulling force of the spiral pile. 5 billion USD, with projections indicating steady growth at a CAGR of around 8% over the next five years. This expansion is primarily fueled by the booming renewable energy sector, particularly large-scale solar farm. The screw pile foundation system is an intelligent alternative fixation method suitable for all devices that depend on this type. Tests carried out on different soils have shown clear advantages in terms of wind load and horizontal load and standing over most concrete foundations which stand on the. We have an annual processing capacity of 12000 tons, mainly engaged in deep processing of steel pipes, photovoltaic pre buried piles, production of various types of spiral piles, hot-dip galvanizing processing, steel plate shaped parts, guardrail production and installation, special alloy steel. In photovoltaic project foundation engineering, spiral ground piles, with their advantages of "no excavation required, quick installation, and strong load-bearing capacity," have become a key alternative to traditional concrete foundations. FASTscrew can produce the right parts to simplify your process.
