

# Portugal pumped hydro storage

## Overview

---

The pumped storage power plant is located in the north-west of Portugal and is installed in an underground cavern. It is not designed as a standalone facility but represents an important addition to the eight plant Cávado-Rabagão-Homem cascade system. Iberdrola has started approval processes for a 1. The difference in height between upper and. The increasing demand to augment the renewable share in the national energy production led Gesto to survey hydro pumped storage plants for the entire continental territory. It outlines the potential pathways to meet the country's carbon neutrality goals by 2050, leveraging PHS technology as a key.
