

# Power generation price of solar power station in Peru

## Overview

---

Peru's upcoming renewable energy auction is generating excitement, with expectations that solar power prices could fall below \$30/MWh. This potential price drop is largely attributed to Peru's abundant solar resources and favorable climate, creating ideal conditions for solar energy generation. The Peru commissioned about 454 MW of utility-scale solar capacity in 2025, taking cumulative installed PV capacity to roughly 952 MW, according to the government. 98 gigawatt in 2025 and estimated to grow from 10. 72% during the forecast period (2026-2031). This expansion comes at a moment when long-standing hydro dominance is giving way to a. The average electricity price in Peru has decreased from ~\$128/MWh in 2023 to ~\$118/MWh in 2024. This will increase at a CAGR of more than 19%.
