

Price list for corrosion-resistant folding containers used in fire stations

Overview

A basic steel folding container might cost around \$1,000 - \$3,000 depending on its size. However, if you need a container that's more resistant to corrosion, weather, and other environmental factors, you might want to consider containers made from high - grade stainless steel. Temporary Tanks are collapsible liquid storage containers designed for temporary or portable use. They offer a flexible and space-saving solution for storing liquids. Acids and corrosives safety cabinets are labeled storage containers that safely store acids and corrosives to protect them from hazards and help contain spills that can contaminate worksites. Huge Catalog! Over 43,000 products in stock.
