

Professional installation price of solar panels

Overview

Based on our 2025 survey of 1,000 solar customers, the national average price for a single solar panel professionally installed is \$1,200. This means most full-size systems of between 20 and 30 panels cost between \$24,000 and \$36,000. 50 per watt and can increase your home's value, making it more appealing to future buyers. Always check for available incentives or tax credits, which can significantly reduce your out-of-pocket costs. This article was created using automation technology. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. Where you live, the number of panels you need, maintenance requirements, and available rebates all determine the final price.
