

Rome Electrochemical Energy Storage Power Station Project

Overview

Italy, J: Enel and Aeroporti di Roma (ADR) have officially launched the Pioneer project, a groundbreaking energy storage initiative designed to accelerate decarbonisation efforts at Rome's Leonardo da Vinci-Fiumicino Airport. Inaugurated on J, at Rome Fiumicino Airport, PIONEER is an energy storage system based on repurposed EV batteries. Through the PIONEER project, they are combining solar energy with a battery system, which can turn yesterday's car power into today's clean energy storage. The project. Following the successful submission of the PIONEER project's proposal in the framework of Innovation Funds Call for small scale initiatives, the relevant Grant Agreement was signed by the funding authority (CINEA), the project's Coordinator (Aeroporti di Roma) and the project's partners (Enel X and.
