

# Rural rooftop solar power generation accident

**Low Voltage  
Lithium Battery**

**6000+** Cycle Life

## Overview

---

The coroner has identified a 28-year-old man who was killed after he fell from a roof in Gurnee while installing solar panels Friday afternoon, which is under investigation by OSHA. Solar panel installation often involves working at heights, on rooftops, and with electrical systems. Falls remain a significant danger in construction-related jobs, including solar installation. The solar farm, covering an expansive 1,900 acres and located at the Muskegon County Resource. Abstract: At 5:00 p. An autopsy performed Monday showed that Braulio Lozano, 28, of Chicago, died as a result of blunt force injuries. Earlier this summer, Tara McDermott, who's in charge of policy communications for a New York state solar developer called EmPower Solar, was telling me a woeful tale a lot like others I'd been hearing lately. A customer whom I'll call Pam had tried to put solar panels on top of her home in Mount. In the 2020 US Bureau of Labor National Census of Fatal Occupational Injuries report, the data shows roofers accounted for 111 of the 5,333 fatal injuries that occurred in 2019. This is up 15% from 2018's figure of 96. Bureau of Labor Statistics (BLS) recently reported that.
