

# Saint Lucia EK electricity storage price

## Overview

---

24/kWh based on re-secure a successful contract that benefits Saint Lucia. Energy storage, in the form of batteries, will play a role in the Saint Lucia electricity system by avoiding reserve capacity and facilitating the integration of variable renewable energy. Battery-backed solar systems provide: "Solar+storage adoption in the Caribbean grew 22% YoY in 2023" - CARICOM Energy Report. Renewable energy is currently economically attractive. This article explores how the island's new policy framework addresses energy security, cost reduction, and sustainability goals. With 40% of electricity still generated from imported fossil fuels, Saint Lucia is looking for ways to reduce its dependence on imported energy. With 12 years specializing in tropical climate energy solutions, EK SOLAR has deployed 850+ storage systems across Caribbean islands. Our Saint Lucia clients include: Need custom solutions?
